CIVIC IMPROVEMENT SOCIETY PLANS

A Playground for School Children and Many Improvements Will Be Arranged for During Coming Year.

The Civic Improvement society of this city is not lagging behind in the national movement for the betterment of city conditions. At the meeting of this body last Tuesday plans for the coming year were outlined that are among the latest innovations planned by the National Playground association, which is holding its convention in Washington at the present time, and the Municipal Government conference that will be held in Philadelphia next month.

The local society has made arrangements with the city school board for the use of the lots at the site of the proposed new high school building, corner of Central avenue and Broadway in the Highlands, as a public playground conducted along the plan adopted in all the large cities.

The society will erect swings, "whirligigs" and other apparatus for the youthful good time, with a ball ground and general romping field for the energetic urbane of this city. It is the intention to make this the first experiment, as nearly a model playground as possible.

Dr. C. W. Taylor-Goodman, who has done such efficient work in that capacity for some years past, retired as the society's president. New officers were elected at this meeting, to serve during the ensuing year, as follows:

President, Mrs. George E. Brower; vice presidents—First ward, Mrs. W. J. Hyde; Second ward, Mrs. William Bryce; Third ward, E. J. Johnson; Fourth ward, Guy E. Stover; secretary, Mrs. M. H. Cannon; treasurer, Mrs. John Borradaile.

The meeting was well attended, gratifying enthusiasm was shown and it is believed that the society will accomplish big things for civic betterment in Albuquerque this year. Special attention was given at the meeting to the discussion of the playground movement, manual training in the public schools and so forth.

Better ventilation for the public school rooms will be another aim of the society, while its "clean-up" policies will be steadily pushed during the year.

The flower garden prize contests which have proved so interesting and profitable under the society's auspices in the past, will be dropped hereafter because of the high cost of water, wherewith the boys and girls must irrigate their plants.

This city beautiful idea is receiving great stimulus all over the territory. At Baton recently a beautiful park was opened, and Las Cruces is also engaged in beautifying its city parks.

SURVEY WORK MAKING PROGRESS

Commenced for Season on Three Forests, and Will Soon Be Begun on Others by United States Forest Service.

According to a statement made today by an officer of the United States forest service, the work of surveying and mapping the forests of the local district is going forward rapidly.

This work, called "reconnaissance work" by the forestry men, includes a survey of the timber available on each forest, its location for the construction of a logging railroad, and, in fact, all the items of information necessary to selling any amount of timber on any forest. It is practically a gigantic inventory of the timber available for use now or in the near future.

Work has already commenced for this season for reconnaissance work can generally be done only in the spring and summer, on account of weather difficulties; on the Pecos, Gila and Sitgreaves forests, and will be begun about June 1 on the Carson and Janos reserves. The Sitgreaves and Carson reservations are in Arizona, the others are in this territory.

The whistle was blowing at the arrival of Jeffries camp.

The show that shows, Airdome.

LOCAL AND PERSONAL

THE WEATHER.

Tonight and Friday fair; not much change in temperature.

Dr. Schwentker Osteopath, Phone 717. John Greenwald of Socorro is here on a short business trip.

William Allison and wife of Clovis are visiting in this city.

Frank Breyer, a local traveling man, left for Belen this morning.

R. M. Bernhardt, a traveling man of Denver who is well known in this city, is here on his regular trip.

C. S. Cunningham of Montclair arrived in Albuquerque for a short stay last night.

Dr. Keck, government physician for the Pueblo Indians, left for Ileta this morning on professional business.

R. C. Rankin, deputy territorial auditor, returned to the city last night after a day or so spent at his home in Las Vegas.

Oh, you guesser! Get a 100-piece dinner set free by guessing the number of nails in the jar in our window. Whitney Hardware Co.

Francis C. Wilson left for Belen this morning to spend the day. Mr. Wilson is a well known resident of Santa Fe and came down from the Airdome City last night.

Governor William J. Mills left for Socorro this morning, after spending the night here, and will address the graduating class of the territorial institute of mines and mining before his return tomorrow evening.

A. B. Rocknagle, assistant district forester in the office of silviculture at the local offices, has gone to the Lincoln national forest on an inspection trip, and will remain there until about the first of the month.

Mrs. Frank Kermanski, a prominent local musician, left for El Paso this morning, where she will visit ten days or so. On this account her recital, which had been planned for June 2, will be postponed about two weeks.

One of the concert companies appearing in the Santa Fe reading rooms stopped over here last night and today on its way west. The company is composed of Mary H. Herndon, Pearl M. Herndon and Dorothy Duff of Los Angeles and Beatrice Plummer of Pasadena.

V. S. Miera, a well known sheep man of Sandoval county and chairman of the board of commissioners of that county, is here from his home in Cuba, N. M., on a short business trip. Mr. Miera reports that the

COMEDY TONIGHT

ARRIVAL OF JEFFRIES

Harrah here comes the chief. The crowds at the Airdome will get a treat surpassing any former attempt that consists of pleasant make-a will present the arrival of Jeffries tonight. Two shows a night, good long programs in fact, a dollar's worth of fun for ten cents. The back cut still controls the weather; the nights are always good if they may have and threaten in the day time but the nights are perfect. That goes to show the boosting system is the right way. It costs a whole lot of money to produce a show like will happen at the Airdome tonight, but the expense doesn't matter as long as the crowds keep coming and are satisfied. Come this very night.

Of course.

"Would you consider American stocks a good buy?" inquired the duke.

"Yes," said the count, "but why spend your money? It is better to acquire them by marriage."

Jeffries arrival fun. Airdome.

Read The Herald's Want Ad Page.

QUANTITY VS. QUALITY.

This is an old theme, but never more to the point than in buying Navajo Blankets. There are as many different grades of Navajo weaving as there are grades of tea—some firms in this city take blankets in exchange for the merchandise furnished to the trading posts—others handle the coarser weavings of the Indians along the railroad, usually made with cotton warp, and in both of these grades you can get a lot of wool for your money.

The blankets offered by the Shop of the Indian Horse come from away back on the Reservation, where the old style of weaving has never been contaminated, and in buying one of OUR Navajo blankets, you get a lot of BLANKET for your money.
